

# Registration now open!

**Abstract Submission Opens**  
8 January 2024

**Abstract Submission Deadline**  
30 April 2024

**Notification to Authors**  
1 July 2024

**Early Registration Deadline**  
23 August 2024

## Abstract Submission Themes

### DESIGN

- Adaptive designs
- Cluster RCT
- Complex interventions
- Diagnostic trials
- Health economics
- Innovative designs
- Interventions: selection
- Outcome measures: core outcome sets
- Outcome measures: patient-reported outcome measures
- Outcome measures: selection and derivation
- Pilot and feasibility studies
- Stratified medicine
- Studies within a trial (SWaTs)
- Systematic reviews, meta-analysis and evidence synthesis

### CONDUCT

- Data management
- Equality, Diversity and Inclusion in Clinical trials
- Health economics
- Healthcare systems data / EHR / RCHD
- Information systems and technology
- Infrastructure, Collaboration & Global Health
- Recruitment and consent
- Retention and follow-up
- Safety and toxicity
- Trial management
- Trial monitoring, data quality & QC
- Studies within a trial (SWaTs)
- Regulatory Issues/Engaging with regulators

### ANALYSIS

- Estimators
- Graphs, infographics
- Health economics
- Healthcare systems data / EHR / RCHD
- Machine learning/AI in clinical trials
- Missing data
- New statistical methods
- Studies within a trial (SWaTs)
- Systematic reviews, meta-analysis and evidence synthesis
- Borrowing of information

### NEW & ONGOING CHALLENGES

- Open Research, Data Sharing and Data Re-use
- Greener trials
- Reproducibility and research waste
- Synthetic data
- Unattended challenges
- Team Science
- De-centralised Trials
- Trials in small populations
- Research ethics/bioethics

### COMMUNICATION & DISSEMINATION

- Communication within trials
- Dissemination of Trial Evidence
- Guidelines
- Measuring impact and changing policy

### PARTICIPANTS, PATIENTS & PUBLIC

- Research into Patient and Public Involvement (PPI)
- Co-producing trials and methodology research

### CASE STUDIES

- Lessons from recent experience
- Lessons from trials in a disease area/population
- Lessons from trials in a region
