

# Essential Guide to Grant Applications 2025

A free masterclass for anyone thinking of applying for an applied health or social care research award from the National Institute for Health and Care Research (NIHR) or other competitive peer-reviewed funding programmes.

## Details

The masterclass will focus on how to sell your research idea by:

- Understanding what reviewers are looking for
- Making your application clear and compelling
- Developing a great research question
- Presenting a strong methods section
- Having a good project plan
- Understanding the importance of equality, diversity and inclusion, patient and public involvement and research inclusion
- Managing intellectual property
- Showing you have thought sensibly about dissemination and the impact of your work
